

## Tony-Roni

Childhood memories of stringing macaroni for Mum is delightfully captured in this whimsical yet stylish necklace.

### What's Needed:

Elbow Macaroni- Ronzoni

Rainbow Coloured Twine- approx. 3 ½ yards

30 cm Beads- Bead Gallery/Halcraft

Tweezers- Use to pull twine through macaroni if needed.

8" Non-Stick Scissors- Fiskars

### How To Make It:

Select twine. We found several choices from Hemp Beadery and on Esty.

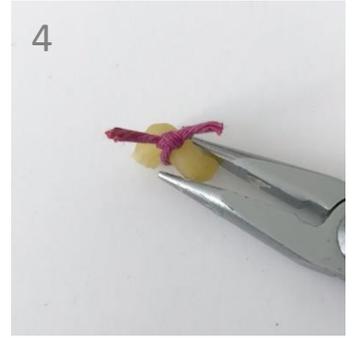

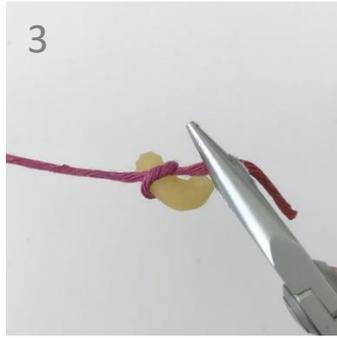

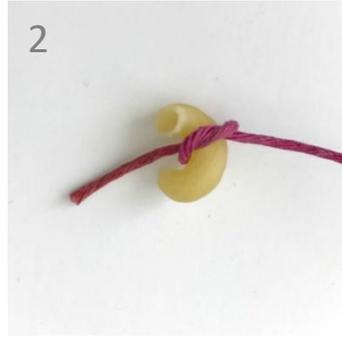

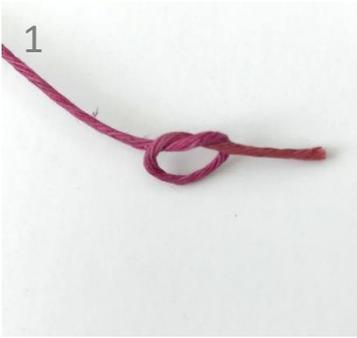

Be mindful as to the size of the twine as the macaroni holes are small and curved.

Embroidery Floss can also be used.

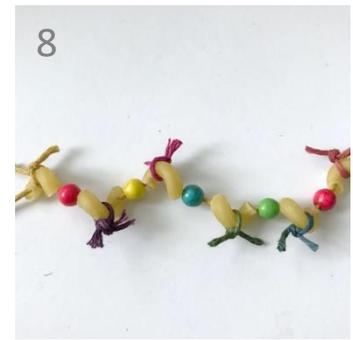

To add colour and texture to the macaroni we tied a piece of colourful twine around each piece.

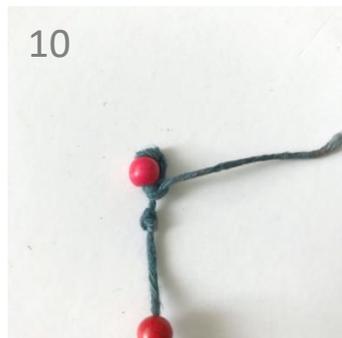

*Note: White or natural twine can also be used. This will yield a neutral necklace. Pair with white or natural beads.*

1. Working off the spool, tie an over hand knot in twine. Do not pull know closed.
2. Slip a piece of macaroni in the knot loop.
3. Pull ends to tighten knot. Make a second knot on top of the first. Pull tight.
4. Cut excess twine off. Repeat. Amount will be determined by desired length.

5. We made a 40" (finished length) necklace that used 52 pieces of macaroni & 56 beads.
6. Place twine, macaroni and beads on a flat work surface.
7. Cut a piece of twine approx. 60" for a 40" necklace. Begin stringing macaroni and beads.
8. Alternate pieces until desired length is achieved. (40" necklace = 52 macaroni + 56 beads)

9. To make the fastener, tie a loop knot in one end of the necklace.
10. Tie a knot then a bead on the other end. Cut off excess twine.
11. Thread bead through loop to close necklace.

The Mac, Mom and Me collection has additional pieces located on the Blu Arlan Holiday/Spring page
