

Trick or Treat Caddies

Adorable white and orange
DIY decorated pumpkins caddies
welcomes Halloween visitors with a
dilemma, do I choose a Trick or a Treat?

What's Needed:

Funkins™ (1 white & 1 orange)

Trick or Treat Labels (included below)- Blu Arlan

Fun-Tak®- Loctite®

Card Stock- (Orange or other colour)

Serrated Knife or Artificial Carving Pumpkin Tool

Fine Sandpaper

Embellishments (Spiders, Raffia, Leaves and Ghost Picks)-Your Choice

Trick (Alien Glow in the Dark Witch Fingers)- Amazon

Treat (Candy)

Artificial Carvable Pumpkin

We chose to use a white and orange medium size Funkins™ for our pumpkin treat caddies. There are other sizes and colours of artificial carvable pumpkins available.

By using Fun-Tak™ to hold the embellishments in place your pumpkin caddies can be re-used. Fill with foiled covered chocolates or ribbon flowers for Thanksgiving gatherings.

How To Make It:

1-Select two artificial carvable pumpkins. We selected one white, one orange, both medium in size.

2-Place one pumpkin and a serrated knife or artificial carving pumpkin tool on a flat work surface.

3- Cut a wavy circle-like shape around the stem using the knife or carving tool. Pull knife in and out to cut through the pumpkin. Cut a notch so lid can be easily put back in place.

4- Remove top.

5- Lightly sand the cut sides of the top with very fine sandpaper.

Note: Sand outside to avoid a dusty mess. Wear a mask if necessary.

6- Sanding will smooth out the edges.

7- Repeat the sanding process on the cut sides of the pumpkin base.

8- Place pumpkin base and top in sink. Rinse pumpkin base and lid with water to remove dust. *Note: Rinse sink thoroughly afterwards.*

9- Let pumpkin dry about 30 mins to 1 hour.

10- Cut the second pumpkin. Sand, rinse and let dry.

How To Make It:

11- To create the Trick and Treat labels download and print the labels below. Let ink dry then cut labels out. Note: *We used the larger label for our pumpkins.*

12- Turn label over and cover back with stick glue or other adhesive from your stash.

13- Place label on a piece of card stock. Use pinking shears to cut out.

14- Place pumpkin, embellishment and Fun-Tak® on a flat work surface.

15, 16- Work a piece of Fun-Tak® in your hand to soften. Place two small pieces on the center back of the label and a larger piece on the embellishment (spider).

17- Set the label and embellishments on the pumpkin. Press on the Fun-Tak to ensure bond.

18- Fill Trick pumpkin with a Tricky Treat. We used alien glow-in-the-dark witch fingers.

19- Repeat label placement for the Treat pumpkin.

20- We decorated our Treat pumpkin by wrapping a piece of raffia around the stem then inserting leaves and a small ghost pick into the raffia to hold them in place.

21- Fill Treat pumpkin with something sweet.

22- Set pumpkins together and allow little goblins to choose a *Trick or Treat*.
