A- Christmas Tree Picnics are the perfect setting for stocking pillows. Their unique shape boosts the body with holiday flair when lounging around the tree.

B- Stockings with pockets make great pouches for remotes or phones while binge watching holiday movies.

C- Select initials or choose to spell out a holiday message.

D- Furry family member find them comfy too!

How To Make It:

1,2 -Pillows can be made from vintage or new stockings. When selecting new, choose materials that are soft to the touch and limited in embellishments that can scratch. This is especially important when making a pillow for a child.

3- Place Poly-Fil®, stocking, thread, needle and scissors on a flat work surface.

4- Pull tufts of Poly-Fil® and insert into the stocking.

5- Guide the Poly-Fil® into the toe and heel area. Repeat inserting tufts and guiding them in place until the stocking is filled.

6- Even out the filling by placing stocking between hands and clapping against the sides of the stocking.

7- To close the top of the stocking, stitch or glue together where the seam of the cuff is attached to the stocking.

8- We use an invisible stitch to close our stocking.

black lines = invisible stitch

9- Repeat process for remaining stocking.

10- If additional pillow shapes are desired, see how to make our fabric napkin pillows. Their super easy! <https://www.bluarlan.com/wp-content/uploads/sites/5414/2018/07/Serviette-Scatter-Cushions-PDF.pdf>
