How To Make It: Ribbon Rosette

1- The ribbon rosette is actually a Harper Daisy Mum without the center. Click link below for instructions. *Follow petal steps only.*

Set finished rosette aside. It will be used below in Step 9.

How To Make It: Preparing Skulls

To give structure to flexible skulls insert a foam ball. 5 skulls will be needed.

2- Cut around the back quarter of the skull using a craft knife.

3- Remove cut piece and discard.

4- Squeeze foam ball into skull.

5- Shave pieces of foam off using craft knife if ball is too big to be inserted. Set skulls aside.

How To Make It: Hat

6- Tie a loose knot in the center of the 1 yard piece of tulle. Hot glue knot to the front of the hat approx. 1.5" above brim. Place one piece of tulle on each side of the hat.

7- Wrap tulle loosely around tulle to the back of the hat.

8- Knot pieces together to secure. Tie tulle a large bow. Fluff up tulle on each side. Cut tulle ends to desired length.

9- Center and hot glue the ribbon rosette on front of the hat.

10- If needed, shave the foam flush to the edge of the skull.

11. Hot glue the back of one skull to the center of the ribbon rosette.

12. Glue two additional skulls on each side of the hat. Keep skulls equally spaced.

13- Finish by hot gluing a red gem in each eye socket.

Complete the look with:

- Harley Quinn Inspired Makeup
- Coloured Contacts
- Faux Leather Jacket

14- To create a skull choker, poke a hole on each side of a skull. Thread a 24" piece of ribbon through. Glue gems on eyes. Tie on neck using a bow.
