

# Belfry Bats

## Bat Loot Bag

Halloween = LOTS OF LOOT.  
Be prepared with our DIY bat loot bag.  
Makes a great Halloween party favor or  
craft.

### What's Needed:

Pre-made Tote Bag

Black Fabric Marker- Tulip

oly\*fun jet black- Fairfield World

Whimsical Delight Stencils- Americana Classic™

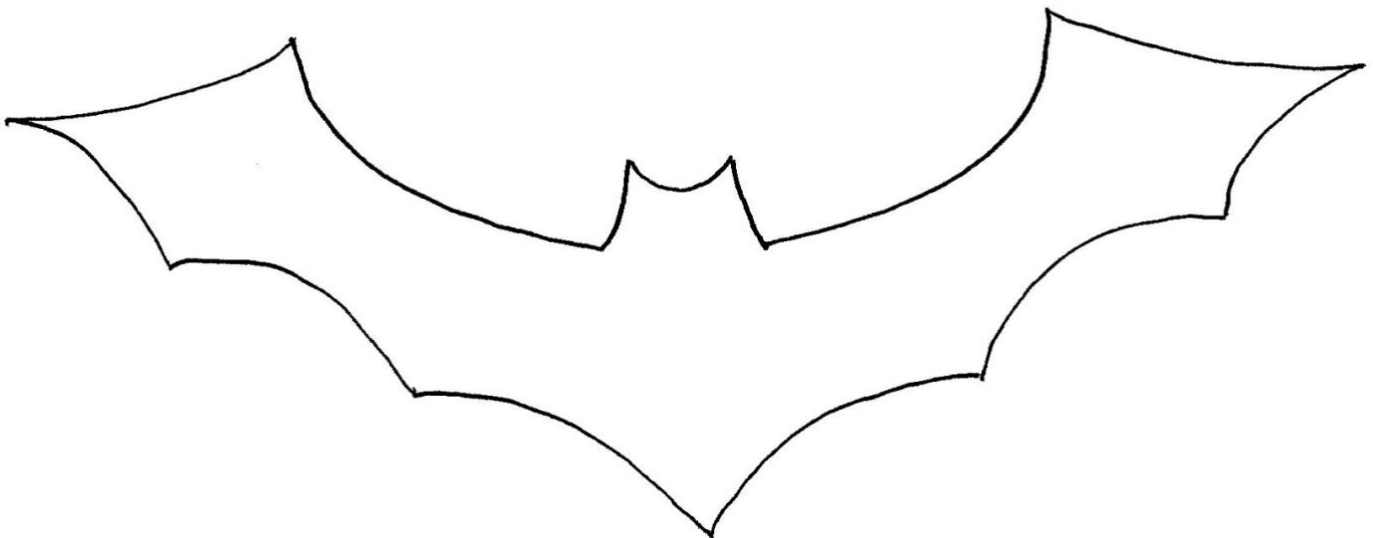

Scribblers 3D Glitter Paint (Ruby)- Tulip

Hot Glue Gun w/ Glue

White Copy Paper

8" Scissors- Fiskars

### How To Make It:

#### Step 1

Download and print out the bat pattern above. Cut three to four bats from the jet black oly\*fun material for each bag being made.

### Step 2

Place a piece of copy paper inside the bag. This will keep the glue and glitter paint from bleeding through.

Arrange the poly\* fun bats on the bag. The number of bats will be determined by placement and the size of the bag. Three to four bats work well.

### Step 3

Hot glue each bat to the bag by running a thin bead of glue through the center of the bats body.

For flying bats, leave the wings unglued. For stationary bats, place a drop of glue on the tip of each wing. Place glued wing to the bag.

### Step 4

Using the Scribbler ruby glitter paint, add two drops to each bat head to form the eyes.

Place the tip of the Scribbler bottle against the bag. Guide the glitter paint randomly around the bats to create swirls. This will add colour and movement to the design. Let paint dry.

### Step 5

Use the letter stencil and black fabric marker to create a greeting on the bag or write a greeting if preferred.
