

Parisian Vampire

Fast & Fabulous

Spell Amour is a vintage inspired DIY Halloween pendent. Perfectly bewitching, it features a heart shape amulet, ghoulish skulls and blood red tassel. Great for a fanciful witch, vampire or enchantress costume.

What's Needed:

Embroidery Floss (2)- DMC

Heart Pendent

Stone Skull Beads (3)- Bead Gallery

Ruby Mixed Czech Glass 6/0- Bead Gallery

Black Jump Rings (5mm 1pc)

Disc or O-Bead (1 pc)

Ruler

Small Comb

Krazy Glue

8" Scissors- Fiskars

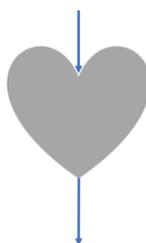

Flat Nose Pliers

How To Make It:

Step 1

Spell Amour features a heart pendent. We found two styles (*see diagram below*) and created instructions for each.

Heart A
Hole drilled
top/bottom

Heart B
Hole drilled
side to side

Step 2

Select the colour of DMC floss to be used. We choose:

- Heart A #3840 (berry shade)
- Heart B #902 (red shade) and #10 (black)

Note: This project is made using all 6 strands, do not separate floss.

Step 3

Heart style A or B

Begin by cutting a piece of floss 10" long. Attach floss to the jump ring using a larks head knot.

Thread both pieces of the floss through 3 glass beads, one skull bead and one glass bead.

Step 4

Heart style A ONLY

Thread both pieces of floss through the center of the heart. Slide heart up under skull. Set piece aside and move onto Step 9.

Step 5

Heart style B ONLY

Follow Steps 6, 7 & 8 to create the heart pendent.

Step 6

Thread both pieces of floss through the hole in the heart from opposite ends.

Step 7

Tie a tight double knot under the skull to hold the beads to the hearts. Thread each piece of floss through the hole again from opposite ends.

Step 8

Pull each piece of floss taut (one piece over the front of the heart the other over the back).

Thread both pieces of floss through the disc/0- bead. Put a drop of Krazy glue around the inner edges of the bead. Place bead on the tip of the heart. Pull the floss taut. Hold in place till glue sets. Set aside.

Step 9

Heart style A & B

To make the tassel wrap one complete skein of floss around 4 fingers. Slide floss off fingers.

Step 10

Cut one end of the floss loop with scissors.

Step 11

Attach heart (A or B) to the tassel by centering the bundle of floss in between the two pieces of floss extending from the heart. Tie a tight double knot to secure.

Step 12

Work the floss around so it's fits together.

To tie the tassel, cut a 5" piece of floss. Wrap it twice around the bundle to create the top of the tassel. Double knot to secure.

Comb the bottom to separate the floss strands creating a fluffy tassel. Trim bottom evenly.

Step 13

To make the necklace cut two pieces of floss 45" long. Thread both pieces through the jump ring. Center the floss on the ring and knot. This will attach the pendent to the necklace.

Note: Our finished length is 19". For longer necklaces increase floss size to 50" or 60".

Step 14

Divide the 4 pieces of floss in half (each side has 2 pieces.) Thread 8 beads on each side. Double knot to secure.

Step 15

Thread groups of 3 to 6 beads on each piece of floss knotting to hold each bead group in place. Bead approx. 4" on each strand.

Step 16

Thread each side of floss (two pieces) through a skull bead then through 3 glass beads. Tie a double knot to secure in place.

Note: To add dangling threads knot a 6" piece of floss under each skull. Floss can be beaded or left plain.

Step 17

To finish, tie a double knot at the end using the all 4 pieces of floss. Be sure to leave enough space to slip necklace over your head.
