

# Scary Cute Spiders

## Spider Loot Bag

Halloween = LOTS OF LOOT.  
Be prepared with our DIY spider loot bag. Makes a great Halloween party favor or craft.

### What's Needed:

Pre-made Tote Bag

Foam or Wiggle Eyes

Black Permanent Marker

oly\*fun jet black- Fairfield World

Whimsical Delight Stencils- Americana Classic™

Hot Glue Gun w/ Glue

White Copy Paper

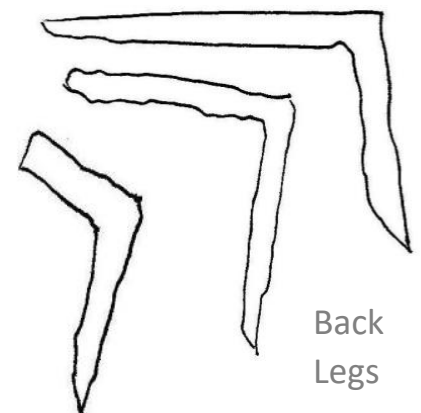

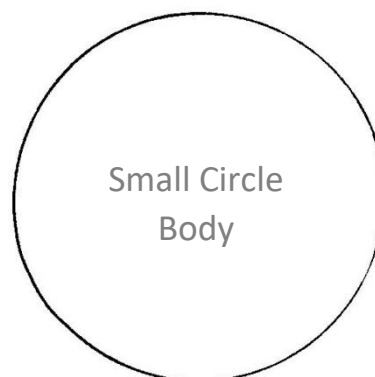

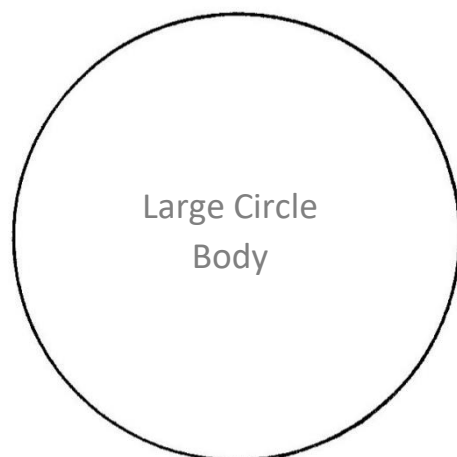

Cotton Twine

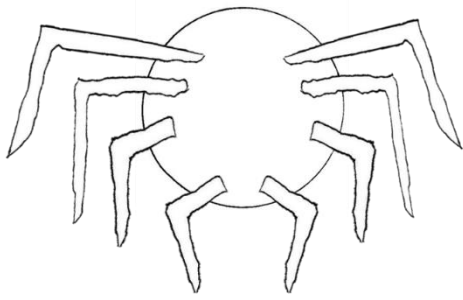

8" Scissors- Fiskars

### How To Make It:

#### Step 1

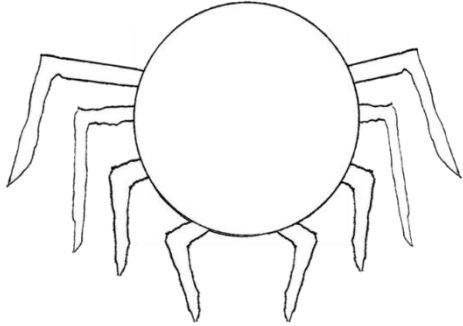

Download and print out the spider pattern below. Cut three large circles, three small circles and 24 legs from the black oly\*fun material for each bag being made.

#### Step 2

Place a small circle on a flat surface. Lay 8 legs around the circle. Hot glue each leg in place.

#### Step 3

Glue larger circle (body) on top. Repeat Steps 2 & 3 to make the remaining spiders.

#### Step 4

Lay bag on flat work surface. Place a piece of paper inside the bag to keep marker and glue from bleeding through.

Set spiders on the bag for placement. To create the spider's thread, glue a piece of white twine from the top of the bag to the spider. The thread can also be drawn using the black marker.

The diagrams are showing white spiders and threads so placement can be seen.

Hot glue spiders on the bag.

#### Step 5

Hot glue eyes on each spider.

#### Step 6

Stencil Halloween greeting using black marker and stencil on the bag.

Hand write a message if preferred.
